

DIRECT THERMAL WRISTBANDS

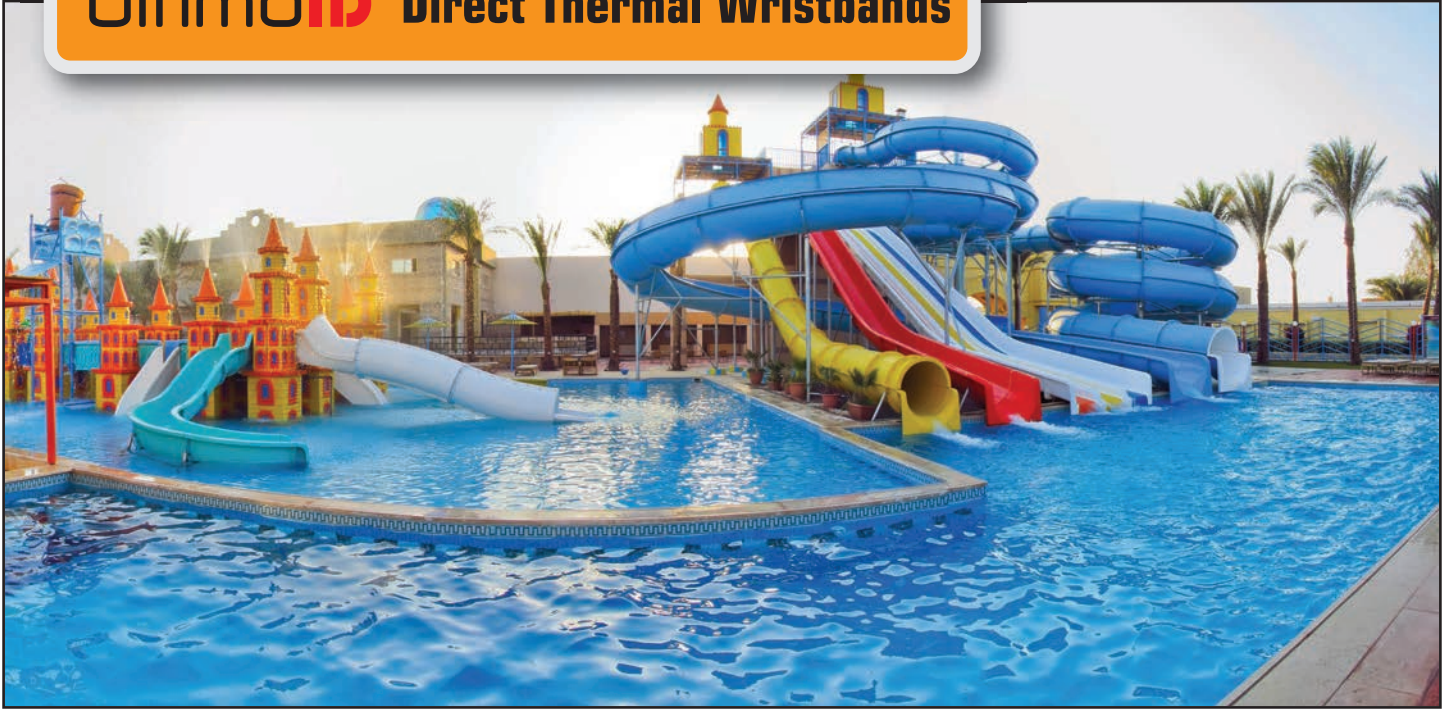

◦ **Ultimold Lite Direct Thermal Wristbands**

◦ **Ultimold Poly Direct Thermal Wristbands**

◦ **Ultimold NRF Direct Thermal Wristbands**

ultimoid® Direct Thermal Wristbands

SIVA's thermal wristbands enable sites to print wristbands with variable data and/or barcodes on-demand, using thermal printers. This allows sites to deploy cashless point of sale, manage access and enhance guest experience. These wristbands also help reduce fraud, enhance transaction speeds and improve operational efficiency.

SIVA understands that each customer has different requirements when it comes to wristbands and that one specific wristband type cannot fulfill each customer's needs.

From basic entry level to premium wristbands, wristbands with enhanced thermal image durability, of different levels of thickness, compatibility with specific printer make and models, SIVA's has a variety of options incorporated in its range of wristbands, aimed at meeting each customer's specific requirements.

SIVA'S RANGE INCLUDE:

ultimoid® LITE

**THICKNESS: 100 MICRONS
USAGE: UPTO 2 DAYS***

ultimoid® POLY

**THICKNESS: 150 MICRONS
USAGE: UPTO 7 DAYS***

ultimoid® nRF

**THICKNESS: 160 MICRONS
USAGE: UPTO 14 DAYS***

* Subject to vary from customer to customer based on application and usage.

Ultimoid Lite is SIVA's entry level direct thermal wristband with an adhesive closure. The adhesive patch is underneath the tamper evident closure, peeled open to fasten the wristband around the wrist.

As the name "Lite" suggests, these wristbands have been designed for application around the wrist for up to 2 days, with no compromise on quality and functionality.

Use of a high quality direct thermal film ensures excellent thermal image durability, resistance to soaps, hand sanitizers, sunscreen lotions and chlorinated water. The high performance permanent adhesive used is water resistant.

Key Features

Tear proof & Stretch resistant

Waterproof

Durability: Ideal for use up to 2 days on the wrist (subjective)

Stock wristbands available, Custom printed option also offered.

Printer Compatibility: Zebra, Sato, TSC, BOCA, Stimare and many others. Compatible with printers which use cutter blades to singulate the wristbands after printing & dispensing.

Application areas: Swimming pools, sauna, events, waterparks, music festivals, concerts, amusement parks, children play centres.

ultimoid[®] POLY

Ultimoid Poly is SIVA's mid-range direct thermal wristband with an adhesive closure and rounded corners for added comfort. The adhesive patch is underneath the tamper evident closure, peeled open to fasten the wristband around the wrist.

Ultimoid Poly is 50% thicker than the Ultimoid Lite version and is an ideal option for users looking for a more robust wristband solution for use in harsher/engaging environments.

Use of a high quality direct thermal film ensures excellent thermal image durability, resistance to soaps, hand sanitizers, sunscreen lotions and chlorinated water. The high performance permanent adhesive used is water resistant.

Printer Compatibility: Zebra, Sato, TSC, BOCA, Stimare and many others. Compatible with printers which use cutter blades to singulate the wristbands after printing & dispensing.

Application Areas: Swimming pools, sauna, waterparks, events, music festivals, concerts, amusement parks, children play centres.

ultimoid[®] NRF

Ultimoid NRF is SIVA's top of the range thermal wristband solution. Use of premium materials, rounded corners and robust construction makes this product extremely durable, making it a fantastic solution for multi-day events.

This wristband features a special dual layer construction that increases its durability and gives it a premium feel and finish. The adhesive release tab is integrated within the dual layer construction and can be peeled off easily to fasten the wristband.

Use of high quality direct thermal film ensures excellent thermal image durability and resistance to soaps, hand sanitizers, sunscreen lotions and chlorinated water. The crispness of coloured artwork printing achieved is excellent, adding to the user experience. The high performance permanent adhesive used is water resistant.
